The logo features a stylized line drawing of a bird, possibly a swan or goose, facing right. The bird is positioned behind the word "GOBI" which is rendered in large, bold, dark grey capital letters. Below "GOBI", the words "Edition 2" are written in a light grey, cursive script font. The entire logo is set against a background of several thin, curved, light grey lines that sweep across the upper half of the page.

GOBI

Edition 2

In 1996 when YBP released GOBI at ALA in Philadelphia we gave academic librarians a better way to select and order books. Now, we thank everyone who joined us at 2003 ALA Midwinter, in Philadelphia, to celebrate the first release of GOBI Edition 2.

GOBI 2 puts into practice all that YBP has learned from libraries and consortia about what they need in an online system.

GOBI set the standard for the 20th century. GOBI Edition 2 sets the standard for the 21st.

A new edition of a classic reference

INTERNATIONAL ENCYCLOPEDIA OF LINGUISTICS

Second Edition

Editor in Chief: William Frawley,
George Washington University

With nearly every article revised in some measure, and including more than 900 entries written by 600 of the world's finest scholars, *International Encyclopedia of Linguistics (IEL)* offers the broadest coverage available of this vast, multi-disciplinary field. All branches of linguistic study—descriptive, historical, comparative, formal, mathematical, functional, philosophical—are included. Biographical sketches of notable linguists are also included and language lists offer detailed information on virtually every known language, from the most widely spoken to those that have as few as two speakers.

Accessible and wide-ranging, the IEL is not only for specialists, but also for a broad spectrum of students and general readers who may be exploring linguistics for the first time.

Reviews from the first edition:

"A splendid production. Comprehensive and easy to use..."—*Language and Literature*

"If one wants a single comprehensive work... the choice should be the IEL....**Highly recommended**..."—*Choice*

"Invaluable for making easily accessible a great deal of factual information."
